

Larry & Venus VanZyl

Larry is Mudsling and Venus is Angel together they wheel their three jeeps with style. Whether it's mud or rock or sand or just any old two track they finesse their way down any trail.

The pair can be seen at all volunteer work parties any place any time they are the first to show and the last to leave.

Schwartz Canyon wouldn't be as clean, Horse Butte as picked up and China Hat Road wouldn't be the same if it wasn't for

these two.

Recently retired they have offered services for every trail maintenance and club function. Thank you two for being sterling examples of community leaders.

We absolutely love you and want you to know where ever your treads hit the trail we will be with you.

Oscar and Suzie; although your little, we love you two too.

Christmas Valley Dunes May 2009

Ethan and Shawna ...

Ethan and Shawna are two smiles away from a giggle.

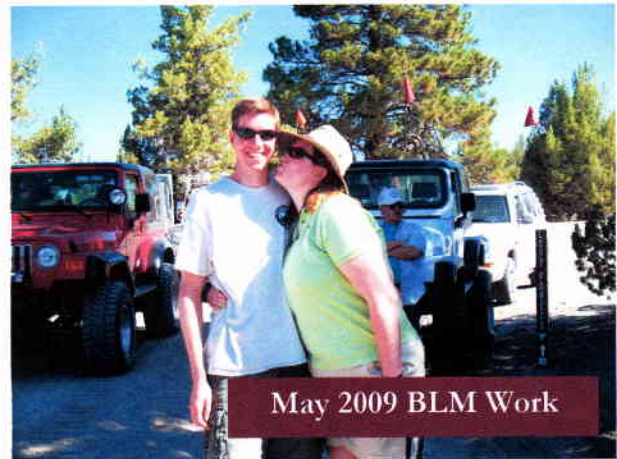

Don't let the serious young couple fool you. They love their wheeling and take the job very seriously.

Ethan of Green's Automotive Service is a Toyota Wizard. Shawna the licorice girl is always ready with her camera.

These two are seen at clean ups and trail maintenance work parties and snow runs and rock crawls and dune fests.

Thank you two too for your hard work and your contributions making the club a functional force.

Iceman, Shawna and Nathan.

May 2009 BLM Work

Joel-Jake-Jesse Michelsen

Few families can compare to the Michelsen Crew. Jake and Jesse the teenage men worked hard at the August first "trail work party". Moving logs by hand they built an accent onto the trail. They then continued on the trail spotting for the drivers and removing debris as needed. Bodyman (Joel)

and his wife Stephanie and their three sons are great additions to DC4W.

With projects of their own in the works Jesse and Jake are getting ready to hit the trails and being prepared is their middle name.

Thanks for your continued participation guys.
