## Many hands make light work

2009's DC4W members volunteered over 13,000 hours of their personal down time to events from one corner of the state of Oregon to the other.

We cleaned beaches, buttes, trails, snow shelters and several dunes in many areas

We ran trails, we built trails, we maintained trails and we planned trails.

We cooked meals, led runs and generally spread ourselves so thin many could see straight through us.

What do you think people saw when they saw the transparency of our organization?

Well I (for one) don't really care. I saw hearts of gold doing their best to further family and friendship ties. Trying

to create a future for the sport of 4X4's and the very existence of trails for each family and friend gathering to trail down the two track hand in hand picnic in tow.

So... farewell 2009 and welcome to the future!

Respectfully submitted,  
Mona Drake

2009

*Au revoir*
